

Browser Settings for K to the 8th Power

In order to ensure the proper operation of the K to the 8th Power lessons and grade book please make certain your student and teacher web browsers are configured in the following manner.

NOTE: If you have a choice Firefox (on Windows or Apple) typically provides the best performance.

Internet Explorer versions 6, 7 and 8 (Windows XP, 2000, Vista, Windows 7)

1. Tools > Internet Options > Security tab > Internet > Security Level – set to **Medium-High on IE 7 and 8** (this is the default setting), set to **Medium on IE 6** (this is the IE 6 default setting)
2. Tools > Internet Options > Privacy tab - set to **Medium** (this is the default setting)
3. Also on this tab click “Settings” for Pop-up Blocker. Add www.kto8.com as a trusted site from which to allow pop-ups. Select **Medium for the Filter Level**.
4. All other pop-up blocker tools (i.e. Google and Yahoo toolbars, etc) **must be** configured to allow pop-ups from www.kto8.com.
5. The browser must have a **Flash Player** from Adobe. Go to www.adobe.com for a free Flash Player download.

Firefox (Windows XP, 2000, Vista)

1. Tools > Options > Content – Block pop-up windows. Click “Exceptions”. Add www.kto8.com as a site from which to allow pop-ups.
2. All other pop-up blocker tools (i.e. Google and Yahoo toolbars, etc) **must be** configured to allow pop-ups from www.kto8.com.
3. Tools > Privacy – The “Accept cookies from sites” must be checked.
4. The browser must have a **Flash Player** from Adobe. Go to www.adobe.com for a free Flash Player download.

Firefox (Apple Mac OS X)

1. Firefox > Preferences > Content – Block pop-up windows. Click “Exceptions”. Add www.kto8.com as a site from which to allow pop-ups.
2. All other pop-up blocker tools (i.e. Google and Yahoo toolbars, etc) **must be** configured to allow pop-ups from www.kto8.com.
3. Firefox > Preferences > Privacy – The “Accept cookies from sites” must be checked.
4. The browser must have a **Flash Player** from Adobe. Go to www.adobe.com for a free Flash Player download.

Safari (Apple Mac OS X)

1. Safari > Preferences > Security – Any option except “Never”
2. Safari >Block Pop-Up Windows – this must be unchecked on www.kto8.com.
3. All other pop-up blocker tools (i.e. Google and Yahoo toolbars, etc) **must be** configured to allow pop-ups from www.kto8.com.
4. The browser must have a **Flash Player** from Adobe. Go to www.adobe.com for a free Flash Player download.
